
Salmon Fishing

Posted by Jason Kik - 2006/09/01 03:51

I went out with my brother and another friend today on the big lake. We fished from 1800-2100 out of port sheldon. The fish are really in right now and staging for their run up the rivers, and they are big this time of year. we boated five for nine and had a combined weight of 64 pounds. The weather was great and we had an awesome time.

If anyone is interested in booking a charter with him, he has availability yet this fall and they are really biting.
