Hey, thanks for stopping by man! I am certainly glad to hear from the other side of the state. I have been to your site in the past and it is nice too. I wouldn't mind meeting up with your web guy sometime for a beer and swapping tips. Do you have a local DSA member admin your site?

I am fortunate to have a talented guy helping me out with our site. He is a CO assigned to our Work Release facility, but currently on loan to Oakland County Information Technology. I am certain that he would love to pick your brain for some ideas, as we are currently making significant changes to our site. I will be meeting with him soon and I will give him this info.

Take care!
