
Earpieces etc...

Some of you have asked me about earpieces for your radio's...

Tele-Rad just started stocking them in our Holland location, 511 E. 8th. They're the acoustic tube with a 40" cord and a 3.5mm threaded jack, they'll work with the speaker mic that most of you use with the HT1000/PR1500, and if you have a different model we can special order one for you and have it within a couple of days. They're \$30+tax.

We also have a supplier that we use that I recently found out carries quite a variety of law enforcement equipment, brands such as 5.11, Safariland, Gerber, Bianchi, Streamlight, Hatch, Peerless, Fobus... and the list goes on. So if any of you are looking to buy anything from Galls, Nye, etc. let me know and I'll see if I can save you a few bucks.

You can send me a PM on here or e-mail me, mitch_kooyers@tele-rad.com or I usually ride in Holland so you can catch me there too.
