
2001 Mercury Mountaineer AWD

Posted by Martin Maloley - 2008/06/17 20:47

Selling a 2001 Mercury Mountaineer AWD with 86,000 miles. This vehicle is in good condition and has been pro-actively maintained by Ford/Mercury dealers. This vehicle is loaded with everything; Leather, power everything, moon roof, towing package. The all-wheel drive is superb in all driving conditions, especially winter. It pains me to sell this vehicle while it has so much life left. Unfortunately, the vehicle has a combined MPG of 16 and I drive an average if 60 miles a day. Asking \$5300, however, I will consider a best offer.
