## Photography

---

Thought I would extend an offer to all here at Ottawa County and there family / friends. My wife (Abby) has decided to extend her photography into what she hopes to become a full time job. At this point she is new to the business however has all the equipment, training, and knowledge to do very professional work. Her professional experiance includes 1 wedding completed and 2 others for later this summer. Countless family portraits, senior pictures, and engadgment pictures.

At this point she is trying to build a portfolio and learn as much as she can so her rates are dirt cheap. If anyone is interested in speaking with her please feel free to e-mail me or leave a post here and I'll put you in contact with her.

This is a small blog that she started to see a little of her work. Thanks, Tim

Great dude.

Nice little Blogspot blog too. Blogs are a great way to promote your business online for no cost, just the time spent writing. I would recommend to her to write lots of little articles about photography and the local area. It helps to boost the blogs rankings in the search engines.

Also, make sure she sets up a profile with all the major social networking sites like Facebook, Myspace, Linked In, etc.

Also posting her pics on Flickr would help too.

Good luck!

Thanks Jones..I'll pass that along to her tonight, she's very excited about the whole adventure so I'm sure she will get on it.

For those who are interested here are some price's to give you an idea.

Portrait's ---\$30 include 1 8x10

Senior pictures---\$100 2 locations w/ 1 change. (studio pics available)

Wedding----\$500 includes proofs

any questions please let us know. Tim
